

EQUINE SERVICES FOR HEROES PROGRAM

Happy Trails Riding Academy's Equine Services for Heroes program assists military veterans and active service members by providing leadership and guidance for equine assisted activities and therapies. Therapeutic horsemanship has been proven to help warriors strengthen physically, mentally, and emotionally in a positive and welcoming environment.

Horsemanship means more than knowing how to ride a horse. It is a relationship between human and horse built on communication. This program aims to create confident, consistent, dependable, quiet horse men and women who are developing a trusting relationship with a horse and, hopefully, taking and applying these lessons to their everyday lives.

Veterans of any age can benefit from the program and by being involved with equines, provided they have been approved by a doctor and do not have any restrictive physical limitations (these are outlined in our rider application).

"I hope that I am always able to interact with Ridge and come to Happy Trails. These are some incredible people offering a life-changing and life-saving programs. It's important." — Norbie Lara
